INDEX to VOLUME XIII

January 1963 — December 1963

SUBJECT INDEX

Adrenalin metabolism in basal ganglia disease (Nashold & Kirshner) 753 (Sept.)

Albers-Schönberg's disease, neurologic manifestations (Klintworth) 512 (June)

Alzheimer's disease, familial study (Feldman et al.) 811 (Oct.)

American Academy of Neurology, abstracts of papers presented at annual meeting 346 (Apr.)

American Board of Psychiatry and Neurology, policies respecting neurology (Ross) 66 (Jan.)

Anemia, megaloblastic, associated with anticonvulsant drug therapy (Long et al.) 697 (Aug.)

Angiography *see* Roentgen examination

Antibodies
- blood-cerebrospinal fluid barrier (Sherwin et al.) 113 (Feb.)
- formation following injection of antigen into subarachnoid space (Sherwin et al.) 703 (Aug.)
- *see also* Immunity

Aortic arch syndrome, or Takayasu's arteritis, description (Riehl) 873 (Oct.)

Arm, muscular atrophy of one limb, consideration as a distinct entity in 20 patients (Hirayama et al.) 373 (May)

Arteries
- angiography *see* Roentgen examination
- anterior cerebral, anatomic features and clinical implications (Baptista) 825 (Oct.)
- arteritis of Takayasu, extent of vascular involvement and neurologic symptoms (Riehl) 873 (Oct.)
- atherosclerosis *see* Atherosclerosis
- bilateral internal carotid and basilar occlusion with minimal deficit (Doniger) 673 (Aug.)
- carotid compression test for cerebrovascular disease, comparison with ophthalmodynamometry and angiography (Toole & Bevilacqua) 601 (July)
- cerebral spasm following rupture of intracranial aneurysm, effect of serotonin and other agents on (Karlsberg et al.) 772 (Sept.)
- internal carotid and middle cerebral occlusion, sensory disorders as aid in localizing (Louis & Lewis) 693 (Aug.)
- internal carotid occlusion, supraclinoid (Silverstein & Hollin) 679 (Aug.)
- middle cerebral obstruction following closed head trauma (Duman & Stephens) 613 (July)
- neck, arteriographic abnormalities in healthy men (Faris et al.) 386 (May)
- ophthalmic, demonstration by carotid angiography (Daly & Potts) 120 (Feb.)
- right internal carotid stenosis, left cerebral infarct with (Lindner & Gurdjian) 255 (Mar.)
- vertebrobasilar syndromes, electroencephalographic findings (Niedermeyer) 412 (May)
- *see also* Cerebrovascular disorders

Arthritis, rheumatoid connective tissue lesions in dura mater, case report (Gutmann & Hable) 901 (Nov.)

Ataxia, Friedreich's
- investigation of cardiac disease in a large family (Heck) 596 (July)
- myocardial involvement, clinical studies and review of literature (Heck) 587 (July)

Atherosclerosis
- carotid atheroma causing fatal cerebral embolism, retinal arteriolar plaques as sign (David et al.) 708 (Aug.)
- cerebral, in diabetes (Grunnet) 486 (June)
- of major cervical and cerebral arteries, autopsy studies of collateral circulation (Kameyama & Okinaka) 279 (Apr.)

B

Behavior
- disorders associated with EEG psychomotor variants (Gibbs et al.) 991 (Dec.)
- hyperkinetic disorders in children, neurological appraisal (Anderson) 968 (Nov.)

Biopsy
- striated muscle, rapid trichrome examination of fresh-frozen sections (Engel & Cunningham) 919 (Nov.)
- studies of muscle spindle (Bonsett & Abreu) 327 (Apr.)

Blepharospasm, reflex, in stroke patients (Fisher) 77 (Jan.)

Blood
- antibody and gamma globulin penetration of blood-cerebrospinal fluid barrier (Sherwin et al.) 113 (Feb.)
- effect of iodinized contrast media on protein, electrolyte, and red cell content (Kutt et al.) 492 (June)

Bones, osteopetrosis, or Albers-Schönberg's disease, neurologic manifestations (Klintworth) 512 (June)

BOOK REVIEWS:

Angevine et al.: The Human Cerebellum, an Atlas of Gross Topography in Serial Sections 179 (Feb.)

Baker: Clinical Neurology 442 (May)

Barker: Symposium on Muscle Receptors 272 (Mar.)

Botez: Afazia si Sindroamele Corelate in Procesele Expansive Intracraniene 622 (July)

Brain: Recent Advances in Neurology and Neuropsychiatry 270 (Mar.)

Brodal et al.: The Vestibular Nuclei and Their Connections, Anatomy, and Functional Correlations 717 (Aug.)

Burgemeister: Psychological Techniques in Neurological Diagnosis 179 (Feb.)

Cernacek & Ciganek: Round Table Conference on Surgical Treatment of the Epilepsies and Neurophysiological Aspects 990 (Nov.)

Chiro: Atlas of Detailed Normal Pneumoencephalographic Anatomy 443 (May)

Collins: Illustrated Manual of Neurologic Diagnosis 272 (Mar.)

Dautrebande: Microaerosols: Physiology, Pharmacology, Therapeutics 717 (Aug.)

Daves & Loechel: Interpretation of Tomograms of Head 89 (Jan.)

Denny-Brown: The Basal Ganglia and Their Relation to Disorders of Movement 899 (Oct.)

Dodgson: The Growing Brain: An Essay in Developmental Neurology 990 (Nov.)

Evans: Acute Head Injuries 900 (Oct.)

Farber & Wilson: Man and Civilization: Control of the Mind 180 (Feb.)

Fazekas & Alman: Coma 88 (Jan.)

Field & Sharkey: Biology and Treatment of Intracranial Tumors 364 (Apr.)

Fields & Abbott: Information Storage and Neural Control 717 (Aug.)

Fields & Desmond: Disorders of Developing Nervous System 179 (Feb.)

Finney & Walker: Transtentorial Herniation 269 (Mar.)

Forster: Synopsis of Neurology 271 (Mar.)

French: Frontiers in Brain Research 716 (Aug.)

Grenell: Neural Physiopathology: Progress in Neurobiology 272 (Mar.)

Guerrant et al.: Personality in Epilepsy 442 (May)

Gybels: Neural Mechanism of Parkinsonian Tremor 715 (Aug.)

Hansen & Schliack: Segmentale Innervation: Ihre Bedeutung für Klinik und Praxis 443 (May)

Hess: Psychologie in Biologischer Sicht 989 (Nov.)

Innes & Saunders: Comparative Neuropathology 270 (Mar.)

Jenkner: Rheoencephalography, A Method for Continuous Registration of Cerebrovascular Changes 88 (Jan.)

Kleist: Sensory Aphasia and Amusia: Myeloarchitectonic Basis 714 (Aug.)

Korey et al.: Ultrastructure and Metabolism of the Nervous System 718 (Aug.)

Livingston: Living with Epileptic Seizures 989 (Nov.)

Longo: Electroencephalographic Atlas for Pharmacological Research: Effect of Drugs on Electrical Activity of Rabbit Brain 90 (Jan.)

Marsan & Abraham: A Seizure Atlas 444 (May)

McCormick: Atlas and Demonstration Technique of Central Nervous System 177 (Feb.)

McIlwain & Rodnight: Practical Neurochemistry 269 (Mar.)

Money: Reading Disability: Progress and Research Needs in Dyslexia 89 (Jan.)

Monnier & Gangloff: Atlas for Stereotaxic Brain Research on the Conscious Rabbit 90 (Jan.)

Osgood & Miron: Approaches to Study of Aphasia 718 (Aug.)

Ostfeld: Common Headache Syndromes: Biochemistry, Pathophysiology, Therapy 810 (Sept.)

Oswald: Sleep and Waking: Physiology and Psychology 271 (Mar.)

Pfeiffer & Smythies: International Review of Neurobiology 87 (Jan.)

Poser & Osburn: International Dictionary of Drugs Used in Neurology and Psychiatry 810 (Sept.)

Renfrew: An Introduction to Diagnostic Neurology 714 (Aug.)

Russell & Espir: Traumatic Aphasia: Study of Aphasia in War Wounds of Brain 86 (Jan.)

Shapiro: Myelography 88 (Jan.)

Snider & Lee: Stereotaxic Atlas of the Monkey Brain 178 (Feb.)

Snider & Niemer: Stereotactic Atlas of the Cat Brain 178 (Feb.)

Steegmann: Examination of the Nervous System: A Student's Guide 90 (Jan.)

Ullman: Behavioral Changes in Patients Following Strokes 180 (Feb.)

Walsh: Cerebellum, Posture, and Cerebral Palsy 900 (Oct.)

Weigelin & Lobstein: Ophthalmodynamometrie 177 (Feb.)

Williams: Modern Trends in Neurology 899 (Oct.)

Wright et al.: Total Rehabilitation of Epileptics: Gateway to Employment 622 (July)

Zangwill: Cerebral Dominance and Its Relation to Psychological Function 178 (Feb.)

Brain
antigen injection into subarachnoid space, immune response following (Sherwin et al.) 703 (Aug.)
arrest of activity by temporal lobe stimulation (Norris) 895 (Oct.)
arteries *see* Arteries; Cerebrovascular accidents
basal ganglia disease, metabolism of adrenalin and noradrenalin in (Nashold & Kirshner) 753 (Sept.)
calculi, relation to epilepsy (Tiberin & Beller) 464 (June)
cancer *see* Tumors of brain
central pontine myelinolysis: case report (Berry & Olszewski) 531 (June)
circulation *see* Circulation
colloid cyst of third ventricle causing paralysis of abducens nerve (Malek & Green) 538 (June)
damage due to lead intoxication (Popoff et al.) 101 (Feb.)
damage due to low-dosage x-irradiation, experimental study (Brownson et al.) 181 (Mar.)
damage due to x-irradiation, time-intensity factors (Brownson et al.) 1011 (Dec.)
damage of minimal degree causing hyperkinetic syndrome (Anderson) 968 (Nov.)
damage, radioisotopic encephalographic study correlated with other neuroradiological and anatomical investigations (Dugger & Pepper) 1042 (Dec.)
damage to dentate nucleus causing familial myoclonus (Gilbert et al.) 365 (May)
familial alobar holoprosencephaly (arhinencephaly) with median cleft lip and palate (DeMyer et al.) 913 (Nov.)
hemiparetic or focal lesions, early detection by tolbutamide-induced seizures (Green) 192 (Mar.)
infantile metachromatic leukodystrophy, topographic distribution of neurons compared to amaurotic idiocy (Abraham & Lampert) 686 (Aug.)
lemnisco-pyramidal intercalary bundle in rhesus monkeys (DeMyer & Russell) 793 (Sept.)
mesencephalic responses elicited by septal and fornical stimulation in cat (Chamberlain & Skultety) 575 (July)
pressure changes causing postural syncope in patient with postoperative lumbar meningocele (Klein et al.) 146 (Feb.)
pressure changes, effect on leptomeningeal collateral circulation in monkeys (Symon et al.) 237 (Mar.)
protein and polysaccharide content in dog: "albumin" changes in experimental edema (Hauser et al.) 945 (Nov.)
subacute spongiform encephalopathy: case reports and review of literature (Christensen & Brun 455 (June)
subcommissural regulation of water and electrolyte metabolism (Gilbert) 43 (Jan.)
surgery, behavioral changes and cognitive function after hippocampectomy in monkey, baboon, and cat (Gol et al.) 1031 (Dec.)
surgery, chemothalamectomy for parkinsonism, somatosensory status before and after (Proctor et al.) 906 (Nov.)
surgery, chemothalamectomy in basal ganglia to abolish parkinsonian tremor and rigidity (Cooper et al.) 779 (Sept.)
surgery, lobectomy for large lesions causing epilepsy (Rasmussen & Gossman) 659 (Aug.)
tumors *see* Tumors of brain
unilateral atrophy, electroencephalographic findings (Nieman & Fullerton) 213 (Mar.)
vascular permeability in area postrema and hypothalamus: radioalbumin study (Wsniewski & Olszewski) 885 (Oct.)
see also Arteries; Cerebrovascular disorders; Electroencephalograms; Epilepsy
Bromide, methyl, overexposure resulting in polyneuropathy (Kantarjian & Shaheen) 1054 (Dec.)

C

Calcium, intracerebral calcification, relation to epilepsy (Tiberin & Beller) 464 (June)
Calculi, cerebral, relation to epilepsy (Tiberin & Beller) 464 (June)
Cancer
brain *see* Tumors, brain
cervical, betatron radiation, pelvic ganglion changes following (Bozzetti & Janovski) 788 (Sept.)
spine, metastatic and primary: choice of conservative and surgical treatment; prognosis (Bucy) 938 (Nov.)
thyroid, unusual occurrence with polymyositis (Klink & Wachs) 160 (Feb.)
Carbohydrates, metabolic defect in hypokalemic periodic paralysis (Satoyoshi et al.) 24 (Jan.)
Carotid artery *see under* Arteries
Cerebral palsy, epilepsy complicating, electroencephalographic prediction (Gibbs et al.) 143 (Feb.)
Cerebrospinal fluid
analysis in diagnosis of metastatic brain cancer (Tourtellotte et al.) 866 (Oct.)
antibody and gamma globulin penetration of blood-cerebrospinal fluid barrier (Sherwin et al.) 113 (Feb.)
fatty acid content in multiple sclerosis and other demyelinating diseases (Tuna et al.) 381 (May)

fatty acid content, relation to serum fatty acids (Tuna et al.) 331 (Apr.)

leucine aminopeptidase levels, nonspecificity as test of neurologic disorders (Green & Perry) 924 (Nov.)

sudden reduction causing postural syncope in patient with postoperative lumbar meningocele (Klein et al.) 146 (Feb.)

Cerebrovascular disorders

causing focal seizures: review of 150 cases (Sumi & Teasdall) 582 (July)

delayed middle cerebral artery occlusion after closed head injury (Duman & Stephens) 613 (July)

diabetes and cerebral atherosclerosis (Grunnet) 486 (June)

fatal atheromatous embolism associated with bright plaques in retinal arterioles (David et al.) 708 (Aug.)

infarction, contralateral carotid stenosis with (Lindner & Gurdjian) 255 (Mar.)

infarction, etiologic factors (Baker et al.) 445 (June)

insufficiency, comparison of tests: carotid compression, ophthalmodynamometry, and angiography (Toole & Bevilacqua) 601 (July)

mimicking classic migraine (Graham) 17 (Mar., special issue)

occlusion with minimal deficit, need for complete arteriography and medical treatment (Doniger) 673 (Aug.)

significance of leptomeningeal collateral circulation in monkeys (Symon et al.) 237 (Mar.)

thromboembolism, therapeutic thrombolysis not effective (Meyer et al.) 927 (Nov.)

thrombosis, direct common carotid injection of radioisotopes for evaluation (Fazio et al.) 561 (July)

transient symptoms in young adults due to Takayasu's polyarteritis (Riehl) 873 (Oct.)

vascular spasm following rupture of intracranial aneurysm, effect of serotonin and other chemicals on (Karlsberg et al.) 772 (Sept.)

Charcot-Marie-Tooth disease, nerve conduction studies in 157 family members (Dyck et al.) 1 (Jan.)

Chemothalamectomy *see* Brain, surgery

Chlorambucil, effect on experimental allergic encephalomyelitis (Thomson et al.) 505 (June)

Chlordiazepoxide hydrochloride, anticonvulsant properties (Brock & Dyken) 59 (Jan.)

Chlormerodrin, radioactive, for cerebral scanning in localization of tumors (Sklaroff et al.) 79 (Jan.)

Cholesterol *see* Lipids

Cholinesterase test of peripheral nerve function (Dickens et al.) 91 (Feb.)

Chromosomes, 46 count in infant with familial alobar holoprosencephaly (arhinencephaly) with median cleft lip and palate (DeMyer et al.) 913 (Nov.)

Circulation, cerebral

collateral, autopsy studies (Kameyama & Okinaka) 279 (Apr.)

direct common carotid injection of isotopes for evaluation (Fazio et al.) 561 (July)

leptomeningeal collateral, mechanism in monkeys (Symon et al.) 237 (Mar.)

potential flow from vein to capillary in dogs (Owens & Stepanian) 251 (Mar.)

regional, determination by krypton^{85} (Lassen et al.) 719 (Sept.)

Congenital anomalies

familial alobar holoprosencephaly (arhinencephaly) with median cleft lip and palate (DeMyer et al.) 913 (Nov.)

malformation of central nervous system: lissencephaly (Miller) 841 (Oct.)

Contrast media *see* Roentgen examination

Convulsions

and nonconvulsive disorders associated with EEG psychomotor variants (Gibbs et al.) 991 (Dec.)

drug therapy causing megaloblastic anemia (Long et al.) 697 (Aug.)

focal seizures due to brain tumor or vascular disease: review of 150 cases (Sumi & Teasdall) 582 (July)

grand mal, due to sleep deprivation in previously healthy young males (Bennett) 953 (Nov.)

see also Epilepsy

Copper, tissue levels in Wilson's disease, autopsy study (Tu et al.) 155 (Feb.)

D

Demyelinating disorders, fatty acids in spinal fluid and serum (Tuna et al.) 381 (May)

Desoxyribonucleic acid content of brain tumors (Nayyar) 287 (Apr.)

Diabetes

cerebral atherosclerosis with (Grunnet) 486 (June)

neuropathy with, autopsy study (Dolman) 135 (Feb.)

Diphenylhydantoin, effect on single cells in spinal trigeminal nucleus (Fromm & Landgren) 34 (Jan.)

Dopamine metabolism in Parkinson's disease (Greer & Williams) 73 (Jan.)

Drugs
anticonvulsant, causing megaloblastic anemia (Long et al.) 697 (Aug.)
for headache (Friedman) 27 (Mar., special issue)

Dystrophy, muscular
congenital, case report and autopsy findings (Short) 526 (June)
oxidative enzyme activity in (Sibrik & O'Doherty) 554 (July)
progressive, methandrostenolone and nandrolone decanoate for, controlled study of results (Barwick et al.) 12 (Jan.)
pseudohypertrophic, mechanism and distribution of degeneration (Bonsett) 728 (Sept.)

E

Edema, cerebral, in dog, albumin levels in (Hauser et al.) 945 (Nov.)

Electroencephalograms
findings in cerebral palsy, predictive value for epilepsy (Gibbs et al.) 143 (Feb.)
findings in narcolepsy (Bülow & Ingvar) 321 (Apr.)
findings in trichinosis encephalitis (Perot et al.) 477 (June)
findings in unilateral cerebral atrophy (Nieman & Fullerton) 213 (Mar.)
findings in vertebrobasilar artery insufficiency (Niedermeyer) 412 (May)
monitoring of diatrizoate brachiocephalic angiography (Faris et al.) 739 (Sept.)
photic activation and photoconvulsive responses in nonepileptic subject (Davidoff & Johnson) 617 (July)
photic driving, mechanism (Duane et al.) 259 (Mar.)
psychomotor variant type of discharge, significance (Gibbs et al.) 991 (Dec.)
relation of abnormality to Wechsler-Bellevue scores (Kløve & White) 423 (May)

Electrolytes
abnormalities in myopathy of hyperthyroidism (Satoyoshi et al.) 645 (Aug.)
subcommissural role in excretion (Gilbert) 43 (Jan.)

Electromyograms
advantages in diagnosis of neuromuscular disorders (Brusa et al.) 630 (Aug.)
findings in polyneuropathy (Thage et al.) 273 (Apr.)
studies of muscle spindle (Bonsett & Abreu) 327 (Apr.)

Electron microscope, immersion-fixation study of central nervous system specimens (Aguilar & De Robertis) 758 (Sept.)

Embolism
cotton-fiber, from gauze-wiped needles complicating cerebral angiography (Chason et al.) 558 (July)
see also Cerebrovascular disorders

Encephalitis, trichinosis, electroencephalographic and neuropsychiatric abnormalities (Perot et al.) 477 (June)

Encephalograms
radioisotopic, comparison with pneumography and angiography in localization of brain lesions (Dugger & Pepper) 1042 (Dec.)
see also Electroencephalograms

Encephalomyelitis, experimental allergic, effect of chlorambucil on (Thomson et al.) 505 (June)

Enzymes
cerebrospinal leucine aminopeptidase levels not significant test of neurologic disorders (Green & Perry) 924 (Nov.)
fibrinolytic, for cerebral thromboembolism, ineffectiveness (Meyer et al.) 927 (Nov.)
glycolytic activity in muscular dystrophy (Sibrik & O'Doherty) 554 (July)

Epilepsy
chlordiazepoxide and Ro 5-2807 therapy (Brock & Dyken) 59 (Jan.)
complicating cerebral palsy, electroencephalographic prediction (Gibbs et al.) 143 (Feb.)
drug therapy causing megaloblastic anemia (Long et al.) 697 (Aug.)
due to cerebral calculi (Tiberin & Beller) 464 (June)
due to gross brain lesions, surgical therapy (Rasmussen & Grossman) 659 (Aug.)
early detection by tolbutamide-induced seizures (Green) 192 (Mar.)
early post-traumatic, significance (Evans) 207 (Mar.)
fetal post-traumatic (Ozán & Gonzáles) 541 (June)
of late onset, prognosis (Hyllested & Pakkenberg) 641 (Aug.)
petit mal, respiratory regulation studies (Bülow & Ingvar) 201 (Mar.)
pure petit mal, prognosis (Currier et al.) 959 (Nov.)
temporal lobe, environmental factors (Forster & Liske) 301 (Apr.)
see also Convulsions

Eyes
bright plaques in retinal arterioles with fatal carotid atheroma (David et al.) 708 (Aug.)
human optic nerve, demonstration of centrifugal fibers (Pfister & Wolter) 38 (Jan.)
reflex blepharospasm in stroke patients (Fisher) 77 (Jan.)

right lateral rectus paralysis associated with colloid cyst of third ventricle (Malek & Green) 538 (June)
signs of migraine (Kunkle) 3 (Mar., special issue)
vertical nystagmus, experimental studies (Szekely & Spiegel) 306 (Apr.)
vision loss before blackout in photic driving (Duane et al.) 259 (Mar.)

F

Face
familial alobar holoprosencephaly (arhinencephaly) with median cleft lip and palate (DeMyer et al.) 913 (Nov.)
spastic paretic contracture as sign of brain stem tumor (Sogg et al.) 607 (July)
see also Neuralgia, trigeminal

Fetus
skeletal muscle, Wohlfart B fibers in (Fenichel) 219 (Mar.)
trauma causing epilepsy (Ozán & González) 541 (June)

Folic acid for megaloblastic anemia due to anticonvulsant drug therapy (Long et al.) 700 (Aug.)

Foot, perforating ulcers of, hereditary sensory neuropathy (Khalifeh & Zellweger) 405 (May)

Friedreich's ataxia *see* Ataxia

G

Galanthamine derivative for myasthenia gravis (Somers et al.) 543 (July)

H

Head
closed injury causing middle cerebral artery occlusion (Duman & Stephens) 613 (July)
injury causing early epilepsy (Evans) 207 (Mar.)

Headache
drug therapy (Friedman) 27 (Mar., special issue)
factors in diagnosis (McNaughton) 24 (Mar., special issue)
migraine, lysergic acid derivative for (Dalessio) 7 (Mar., special issue)
migraine, natural history and epidemiology (Ostfeld) 11 (Mar., special issue)
psychiatric aspects of treatment (Kolb) 34 (Mar., special issue)
seven common types, profiles of symptoms and backgrounds of patients (Graham) 16 (Mar., special issue)
vascular, mechanisms (Kunkle) 1 (Mar., special issue)

Heart
myocardial degeneration in hereditary ataxia (Heck) 587 (July)
various disorders in hereditary ataxia: investigation in large family (Heck) 596 (July)

Hemochromatosis, central nervous system involvement in (Lewis & Darja) 500 (June)

Hormone imbalance as cause of benign intracranial hypertension (Greer) 670 (Aug.)

Hypertension
benign intracranial, following corticosteroid therapy in children (Greer) 439 (May)
benign intracranial, in pregnancy, hormonal basis (Greer) 670 (Aug.)

Hypoglycemia, tolbutamide-induced, to disclose cerebral lesions (Green) 192 (Mar.)

I

Immunity
antigen-antibody reaction in multiple sclerosis, allergen or virus as cause (Schaller) 851 (Oct.)
immune response following injection of antigen into subarachnoid space (Sherwin et al.) 703 (Aug.)
immune response in multiple sclerosis (Baxter) 869 (Oct.)

Infarction *see* Cerebrovascular disorders

Injuries *see* Head

Intoxication *see* Poisoning

Iproniazid with tryptophan, effects in rhesus monkey (Curzon et al.) 431 (May)

J

Jugular foramen syndrome and allied disorders: etiology, diagnosis, and treatment (Svien et al.) 797 (Sept.)

L

Lead encephalopathy in children (Popoff et al.) 101 (Feb.)

Leukodystrophy, metachromatic, intraneuronal lipid deposits in (Abraham & Lampert) 686 (Aug.)

Light sensitivity causing convulsive EEG response in nonepileptic subject (Davidoff & Johnson) 617 (July)

Lipids
hypercholesteremia with cerebral atherosclerosis of diabetes (Grunnet) 486 (June)
in cerebrospinal fluid, relation to serum lipids (Tuna et al.) 331 (Apr.)
in spinal fluid and serum of patients with multiple sclerosis and other demyelinating diseases (Tuna et al.) 381 (May)
phospholipids in brain tumors (Nayyar) 287 (Apr.)

Lissencephaly, study of cerebral anomaly in 2 siblings (Miller) 841 (Oct.)

Lycoramine derivative for myasthenia gravis (Somers et al.) 543 (July)

Lysergic acid
butanolamide derivative for migraine (Dalessio) 7 (Mar., special issue)
methysergide for headache (Friedman) 27 (Mar., special issue)

M

Magnesium serum levels in Parkinson's disease (Barbeau et al.) 56 (Jan.)

Malnutrition in infants due to anterior hypothalamic neoplasms (White & Ross) 974 (Nov.)

Methandrostenolone for progressive muscular dystrophy, controlled study of results (Barwick et al.) 12 (Jan.)

Methysergide
for headache (Friedman) 31 (Mar., special issue)
for migraine headache (Dalessio) 7 (Mar., special issue)

Mouth, familial alobar holoprosencephaly (arhinencephaly) with median cleft lip and palate (DeMyer et al.) 913 (Nov.)

Multiple sclerosis
autoinoculation skin reaction in (Schaller) 851 (Oct.)
fatty acids in spinal fluid and serum (Tuna et al.) 381 (May)
serum C' levels in (Baxter) 869 (Oct.)

Muscles
atrophy and weakness of Charcot-Marie-Tooth disease, nerve conduction studies (Dyck et al.) 1 (Jan.)
atrophy of unilateral upper extremity, consideration as distinct entity in 20 patients (Hirayama et al.) 373 (May)
comparison of histologic and electromyographic findings in various neuromuscular disorders (Brusa et al.) 630 (Aug.)
contraction of tension headache, drug therapy (Friedman) 27 (Mar., special issue)
electromyography and needle biopsy studies of muscle spindle (Bonsett & Abreu) 327 (Apr.)
fetal skeletal, Wohlfart B fibers in (Fenichel) 219 (Mar.)
infantile spinal atrophy, histochemistry (Fenichel & Engel) 1059 (Dec.)
myoclonus and ataxia in family group (Gilbert et al.) 365 (May)
polymyositis associated with thyroid cancer (Klink & Wachs) 160 (Feb.)
striated, rapid trichrome examination of fresh-frozen sections (Engel & Cunningham) 919 (Nov.)
subthreshold activity of normal and myasthenic end plates (Hofmann & Stemmer) 227 (Mar.)
see also Dystrophy, muscular

Myasthenia gravis
lycoramine derivatives for (Somers et al.) 543 (July)
subthreshold activity of end plates (Hofmann & Stemmer) 227 (Mar.)

Myelinolysis, central pontine: case report (Berry & Olszewski) 531 (June)

Myoclonus, familial form with ataxia, cerebellar lesions causing (Gilbert et al.) 365 (May)

N

Nandrolone decanoate for progressive muscular dystrophy (Barwick et al.) 12 (Jan.)

Narcolepsy, respiratory and electroencephalographic effects (Bülow & Ingvar) 321 (Apr.)

National Institutes of Health training program in neurological sciences (Masland) 315 (Apr.)

Neck arteries, abnormalities in healthy men (Faris et al.) 386 (May)

Nerves
abducens paralysis during transient decerebrate rigidity with colloid cyst of third ventricle (Malek & Green) 538 (June)
comparison of histologic and electromyographic findings in various neuromuscular disorders (Brusa et al.) 630 (Aug.)
fiber conduction studies in man (Mayer) 1021 (Dec.)
hereditary sensory neuropathy with spinal cord disease (Khalifeh & Zellweger) 405 (May)
human optic, demonstration of centrifugal fibers (Pfister & Wolter) 38 (Jan.)
lesions in diabetes, autopsy study (Dolman) 135 (Feb.)
low conduction velocity in Charcot-Marie-Tooth disease (Dyck et al.) 1 (Jan.)
motor nerve conduction velocity in diagnosis of peripheral nerve disease (Hudson & Dow) 982 (Nov.)
peripheral function, cholinesterase determinations (Dickens et al.) 91 (Feb.)
peripheral neuropathy due to oral nitrofurantoin (Willett) 344 (Apr.)
phenol injections, effect on both large and small nerve fibers (Berry & Olszewski) 152 (Feb.)
polyneuropathy, electromyographic findings (Thage et al.) 273 (Apr.)
within posterior fossa of cranium at base of skull: etiology, diagnosis, and treatment of jugular foramen and allied syndromes (Svien et al.) 797 (Sept.)
see also Nervous system; Neuralgia

Nervous system, central
complications of arthritis (Gutmann & Hable) 901 (Nov.)
congenital malformation (lissencephaly) in 2 siblings (Miller) 841 (Oct.)
electron microscope inspection, formalin-perfusion fixation method (Aguilar & De Robertis) 758 (Sept.)
general nonspecific effect of serotonin on (Pineda & Snider) 166 (Feb.)
involvement in hemochromatosis: case report (Lewis & Darja) 500 (June)
involvement in osteopetrosis (Klintworth) 512 (June)
involvement in Whipple's disease (Koudouris et al.) 397 (May)
manifestations of methyl bromide poisoning (Kantarjian & Shaheen) 1054 (Dec.)
see also Encephalitis; Encephalomyelitis; Nerves

Neuralgia
idiopathic trigeminal, central rather than peripheral disorder (Fromm & Landgren) 34 (Jan.)
trigeminal, headache due to (Graham) 20 (Mar., special issue)

Neurologist, present responsibilities and needs of specialty (Sahs) 623 (Aug.)

Nitrofurantoin causing peripheral neuropathy (Willett) 344 (Apr.)

Nystagmus, vertical, experimental studies (Szekely & Spiegel) 306 (Apr.)

O

Osteopetrosis, or Albers-Schönberg's disease, neurologic manifestations (Klintworth) 512 (June)

P

Paralysis
hypokalemic periodic, relation of hypoglycemia to carbohydrate abnormality (Satoyoshi et al.) 24 (Jan.)
periodic, in hyperthyroidism (Satoyoshi et al.) 746 (Sept.)

Parkinson's disease
chemothalamectomy for, somatosensory status before and after (Proctor et al.) 906 (Nov.)
chemothalamic lesion abolishing tremor and rigidity, anatomic verification (Cooper et al.) 779 (Sept.)
dopamine metabolism in (Greer & Williams) 73 (Jan.)
metabolism of adrenalin and noradrenalin in (Nashold & Kirshner) 753 (Sept.)
serotonin and magnesium metabolism in (Barbeau et al.) 56 (Jan.)

Pelvis, ganglial degeneration following high-voltage radiation to (Bozzetti & Janovski) 788 (Sept.)

Phenol, intrathecal injections, effect on both large and small nerve fibers (Berry & Olszewski) 152 (Feb.)

Phosphatase, alkaline, activity in induced brain tumors (Kirsch) 123 (Feb.)

Pituitary gland, chromophobe adenoma with subarachnoid metastases (Madonick et al.) 836 (Oct.)

Plasmin therapy of cerebral thromboembolism ineffective (Meyer et al.) 927 (Nov.)

Poisoning
lead, pathologic brain changes in children (Popoff et al.) 101 (Feb.)
methyl bromide, nervous system manifestations resembling polyneuropathy (Kantarjian & Shaheen) 1054 (Dec.)
nitrofurantoin, causing peripheral neuropathy (Willett) 344 (Apr.)

Polymyositis, unusual association with thyroid carcinoma (Klink & Wachs) 160 (Feb.)

Potassium
for myopathy of hyperthyroidism (Satoyoshi et al.) 645 (Aug.)
hypokalemia in periodic paralysis, relation to carbohydrate abnormality (Satoyoshi et al.) 24 (Jan.)
metabolism in periodic paralysis of thyrotoxicosis (Satoyoshi et al.) 746 (Sept.)

Pregnancy
benign intracranial hypertension in, hormonal basis (Greer) 670 (Aug.)
uterine trauma causing fetal epilepsy (Ozán & González) 541 (June)

Psychoneuroses *see* Behavior; Stress

R

Radiation
brain damage due to low doses (Brownson et al.) 181 (Mar.)
high-voltage betatron, for cervical carcinoma, degeneration in pelvic ganglia following (Bozzetti & Janovski) 788 (Sept.)
relation of time-intensity factor to brain damage and recovery (Brownson et al.) 1011 (Dec.)

Radioisotopes
for evaluation of cerebral circulation and of thromboses (Fazio et al.) 561 (July)
for measuring regional blood flow in brain (Lassen et al.) 719 (Sept.)
investigation of brain lesions correlated with other neuroradiological and anatomical studies (Dugger & Pepper) 1042 (Dec.)

Respiratory tract, response to narcolepsy (Bülow & Ingvar) 321 (Apr.)

Ro 5-2807, anticonvulsant properties (Brock & Dyken) 59 (Jan.)

Roentgen examination
- angiographic demonstration of supraclinoid portion of internal carotid (Silverstein & Hollin) 679 (Aug.)
- arteriography of neck vessels, lesions revealed in healthy men (Faris et al.) 386 (May)
- brachiocephalic angiography, results of electroencephalographic monitoring during (Faris et al.) 739 (Sept.)
- carotid angiography, cotton-fiber emboli from gauze-wiped needles (Chason et al.) 558 (July)
- carotid angiography, filling of ophthalmic artery in (Daly & Potts) 120 (Feb.)
- complete angiography in cerebrovascular disease, rationale (Doniger) 673 (Aug.)
- iodinized contrast media, effect on blood proteins, electrolytes, and red cells (Kutt et al.) 492 (June)

Roentgen therapy *see* Radiation

S

Serotonin
- cerebral levels in Parkinson's disease (Barbeau et al.) 56 (Jan.)
- effect on vascular spasm following rupture of intracranial aneurysm (Karlsberg et al.) 772 (Sept.)
- general nonspecific depressant action on brain stem and cerebellum (Pineda & Snider) 166 (Feb.)

Sleep deprivation precipitating grand mal convulsion in apparently normal individuals (Bennett) 953 (Nov.)

Spine
- cord disease of hereditary sensory neuropathy Khalifeh & Zellweger) 405 (May)
- cord trauma, urea as adjunct to treatment (Joyner & Freeman) 69 (Jan.)
- decompressive laminectomy for malignant tumors (Bucy) 938 (Nov.)
- infantile muscular atrophy, muscle histochemistry in (Fenichel & Engel) 1059 (Dec.)
- painless tumors of cauda equina: case report (Campbell) 341 (Apr.)
- postoperative lumbar meningocele, sudden decrease in fluid pressure causing syncope (Klein et al.) 146 (Feb.)
- rheumatoid pachymeningitis: connective tissue lesions in cervical dura mater with arthritis (Gutmann & Hable) 901 (Nov.)

Steroid drugs causing benign intracranial hypertension in children (Greer) 439 (May)

Stress
- as factor in headache (Kolb) 34 (Mar., special issue)
- convulsive threshold in apparently normal young males (Bennett) 953 (Nov.)

Sugar, hypoglycorrhachia with localized intracranial tumor (Tegeris & Brandriss) 336 (Apr.)

Syncope, postural, due to acute reduction in intracranial pressure in patient with postoperative lumbar meningocele (Klein et al.) 146 (Feb.)

T

Takayasu's disease: obliterative polyarteritis, features and case reports (Riehl) 873 (Oct.)

Tests
- for cerebrovascular insufficiency, comparison of carotid compression, ophthalmodynamometry, and angiography (Toole & Bevilacqua) 601 (July)
- for neuromuscular function, subthreshold endplate potential (Hofmann & Stemmer) 227 (Mar.)
- for peripheral neuropathies, nerve conduction velocity (Hudson & Dow) 982 (Nov.)
- psychologic, correlation of scores with EEG findings (Kløve & White) 423 (May)

Thiamine elevation in hypokalemic periodic paralysis (Satoyoshi et al.) 24 (Jan.)

Thyroid
- cancer, unusual occurrence with polymyositis (Klink & Wachs) 160 (Feb.)
- hyperthyroidism, muscle weakness and atrophy in (Satoyoshi et al.) 645 (Aug.)
- hyperthyroidism, periodic paralysis in (Satoyoshi et al.) 746 (Sept.)

Tranquilizers for headache (Friedman) 27 (Mar., special issue)

Trichinosis encephalitis, electroencephalographic and neuropsychiatric abnormalities (Perot et al.) 477 (June)

Tryptophan, biochemical, behavioral, and neurologic effects of high intake in rhesus monkey (Curzon et al.) 431 (May)

Tumors of brain
- alkaline phosphatase activity, histochemical and quantitative analysis (Kirsch) 123 (Feb.)
- atypical teratoma (pinealoma), meningoencephalitic and endocrine manifestations (Booth et al.) 999 (Dec.)
- benign solitary, hypoglycorrhachia with (Tegeris & Brandriss) 336 (Apr.)
- cauda equina, painless: case report (Campbell) 341 (Apr.)
- causing focal seizures: review of 150 cases (Sumi & Teasdall) 582 (July)
- causing headache (Graham) 22 (Mar., special issue)
- chromophobe adenoma of pituitary metastasizing to subarachnoid space (Madonick et al.) 836 (Oct.)

glioblastoma multiforme seeding in subarachnoid space and ependyma (Moore & Eisinger) 855 (Oct.)

localization by scanning with radioactive chlormerodrin (Sklaroff et al.) 79 (Jan.)

metastatic, cerebrospinal fluid analysis in diagnosis (Tourtellotte et al.) 866 (Oct.)

neural phosphate, DNA, and phospholipid content (Nayyar) 287 (Apr.)

of anterior hypothalamus presenting as inanition, diagnosis and prognosis (White & Ross) 974 (Nov.)

of stem, in adults (White) 292 (Apr.)

of stem, spastic facial contracture as sign (Sogg et al.) 607 (July)

U – W

Ulcers, perforating, of feet, in hereditary sensory neuropathy (Khalifeh & Zellweger) 405 (May)

Urea, use in spinal cord trauma (Joyner & Freeman) 69 (Jan.)

Voice, phonation tremor, organic basis (Brown & Simonson) 520 (June)

Water, subcommissural role in excretion (Gilbert) 43 (Jan.)

Werdnig-Hoffmann disease, muscle histochemistry in (Fenichel & Engel) 1059 (Dec.)

Whipple's disease, central nervous system lesions in (Koudouris et al.) 397 (May)

Wilson's disease, copper levels in tissues, autopsy study (Tu et al.) 155 (Feb.)
